

# Filter Cartridges

Stormwater filtration cartridges for StormBasin & StormPod

Part Number	Effectiveness	Ring color code
9718-1	<b>Standard Cartridge</b> Good All-purpose cartridge for common surface runoff that may contain a little bit of everything.	Red
9718-2	<b>Pathogens Cartridge</b> 2x's more pathogen treatment Vs. Std Cartridge. Use near sensitive water ways to keep beaches and shell fishing areas open.	Yellow
9718-3	<b>HV Hydrocarbon Cartridge</b> 25% more hydrocarbon filter media Vs Std cartridge. Excellent for vehicle or maintenance related applications.	Blue
9718-4	<b>HV Metals Cartridge</b> Uses unique FABLITE filter media for HV metals. Suggested for industrial usage where persistent HV metals have been identified in surface runoff	Grey
9718-5	<b>Standard short Cartridge</b> Reduced height version of std Cart.	Mint
9718-6	<b>Nutrients Cartridge</b> Uses proprietary FABPHOS media for nutrients. Highly effective on the critical dissolved Ortho-Phosphates. Helps reduce algae blooms keeping the water clean and healthy.	Green

Standard Filter Cartridge
