RE: Offering of Disposal Services to Charles Esposito & Associates

Covanta Secure Services, LLC (CSS) is pleased to provide Charles Esposito & Associates this proposal to provide assured destruction and secure disposal of non-hazardous storm sewer filtration cartridges. Covanta proposes the following pricing and related services:

Waste Type	Covanta Destination Facility	Destination City & State (Hyperlink)	Pit Feed Disposal Price/Ton
Spent sewer filtration cartridges	Covanta Lake, Inc.	Okahumpka, FL	\$180

1. Pit Witness Feed is an additional \$25 per ton.
2. There is a \$500 minimum disposal charge per load.
3. When requested, CSS will provide special handling services.
 - a. Labor will be billed at the prevailing rate; currently \$45 per man hour.
4. Annually, prices are adjusted to reflect the U.S. City Average Consumer Price Index for Urban Consumers (CPI-U). Your next adjustment will be January 1, 2007.
5. All pricing is in U.S. dollars.

Covanta appreciates the opportunity to bid on this waste stream. Please contact me with any questions.

Sincerely,

A handwritten signature in black ink that reads "Brad Stenz". The signature is stylized and cursive.

Additional Information

Procedures for Profiling Proposed Waste Stream

The following internet URL's lead to several documents requiring execution and approval prior to shipping this waste stream:

[Material Characterization Form](#) Please complete all three pages and execute where appropriate on page 3. Include any supporting documentation such as an MSDS, product insert or analytical data to assist CSS in determining the acceptability of your waste stream(s). Please forward the completed MCF to our corporate office. Should you have questions regarding MCF completion; please check the instructions found at [Material Characterization Form Instructions](#).

[Service Company Form](#) Should you desire your client's authorization to profile waste on their behalf, execute the bottom half of this form as appropriate. If your client will sign all forms as the generator, leave the bottom half blank. Please print, complete required information and include with the completed MCF.

Additionally, our EH&S team will require a total metals analysis and e-coli screen for the spent cartridges prior to formal approval. When you are ready to perform these tests, please feel free to contact me to review our requirements. Attached to this e-mail is a list of constituents and minimum detection limits for the analysis of the cartridges.

[Credit Application](#) If you have a prepared document for this purpose, please attach your prepared document to ours, execute where appropriate on page three and forward to our corporate office in Fairfield, New Jersey.

[Disposal Agreement](#) is our Terms & Conditions Service Agreement. Please print two copies, execute each where applicable on page 1 and forward both copies to our corporate office. We will countersign and promptly return one fully executed copy to you. Should you have any questions regarding the intent of our contract language, please contact Larry DellaVecchia at (973) 882-7310.

Once required profile forms are completed and fully executed, please send these documents to the attention of:
